CARS & LIFESTYLE

## YOUR EVENT AT SO BRITISH!

For this coming end of year, we will be crossing the Channel and heading to the United Kingdom. The "So British! cars & lifestyle" exhibition promises to be an unforgettable immersion into the world of a nation that has seen the birth of an impressive number of mythical motorcars! More than 50 mythical British post-war cars- among which several rare and exceptional vehicles – will be displayed in a typical London atmosphere which through its structure and realism will take visitors back.

In this holiday season, pretty shopping streets with chic showcases form the backdrop. In addition, a "Black Box" will house some supercars. The whole museum will be on time for the traditional Christmas shopping with its beautiful decorations and giant Christmas tree.

All those who know London are fully aware that the British people have no problem in bringing out their splendid classic or supercars; the most exclusive machines rubbing shoulders with the mainstream vehicles. That is why "So British!" will merrily bring together the entirety of the British production.

### AN EXCLUSIVE EVENT
